Perfect results at the press of a button!

Our new generation of A3 multifunctional systems are based on an innovative new concept that combines easy, intuitive operation with a compact and appealing design. These MFPs achieve copy/print speeds of 25/30 A4 pages per minute (b/w systems) and 20/25 A4 pages per minute (colour systems). Alongside the main functions, there are plenty of useful features such as network printing, USB direct printing (both in b/w and colour), as well as colour scanning and optional faxing. All models feature a document feeder*, duplex unit and job separator as standard.

When fitted with the optional finisher, these new MFPs offer the complete solution for producing all kinds of documents – quickly and in a single operation. They can effortlessly process paper formats ranging from A3 to A6R, paper weights of up to 256 g/m², and paper capacities of up to 1,600 sheets.

*Platen cover is a standard feature on the DC 6025P only.

Printing's never been easier!

After a quick initial setup and a very brief warm-up period, the new multifunctional systems are immediately available for any size job. They are an unobtrusive addition to small to mid-size office environments, and a fantastic assistant for medium-sized teams – wonderfully quiet and visually appealing thanks to their duotone design.

Operation is user-friendly and intuitive via a colour touch screen that also enables you to store favourites and programs. The brilliance of the print output is matched by superb energy efficiency; energy consumption is merely one watt in sleep mode. Functions such as support for security protocols like IPsec and SSL encryption ensure that network security is maintained at all times. For users who need even more features, there are a range of add-on options: fax kit, 500-sheet staple finisher, supplementary paper trays, and a USB card reader kit for card authentication.

A breath of fresh air:

- Extremely user-friendly operation
- Compact, visually appealing design
- Copy/print speeds of 25/30 A4 pages per minute (b/w systems) and 20/25 A4 pages per minute (colour systems)
- Short warm-up period and immediate output of the first page
- Network printing and USB direct printing
- Scanning in b/w and colour (scan to e-mail, PC, FTP, USB)
- Document feeder*, duplex unit and job separator on all models
- Easy operation via touch screen; storing of favourites and programs
- Standard paper capacity of 600 sheets, maximum capacity of 1,600 sheets
- Standardised upgrade and extension modules for all models
- Support for a wide range of security features
- Environmentally friendly thanks to low energy consumption (one watt in sleep mode)
- Quiet operation

*Platen cover is a standard feature on the DC 6025P only.
