CONSULTING REALISATION EFFICIENCY

Makes everything look a whole lot better.

The DCC 2625 colour multifunctional system is a true all-round talent that you will quickly learn to value. Use it to print, copy, scan and, if you want, to fax – absolutely no problem. Its perfect image quality will impress you as much as its high speed – at 25 A4 pages a minute in colour or b/w, you will love giving it your most colourful office documents. Whether it is for a small team or a larger workgroup: it will be your economical assistant giving you top productivity. It is ideal support for larger jobs, too, with many intelligent functions and extra options.

Perfect, inside and out.

It quickly gets down to business: the multifunctional DCC 2625 colour laser system prints 25 A4 pages a minute in colour and b/w after just 45 seconds of warm-up time, and delivers the first page, whether it be colour graphics, a booklet or presentation, after just 7.9 seconds. Sophisticated editing functions for images, text and background areas of copies as well as the option of finely tuning colours for printed text, photos, graphics or line drawings are technical innovations that ensure a perfect result. Other advantages are the optimised calibration control and the automatic selection of b/w or colour copies after scanning. The standard duplex unit, increasing paper capacities to 4,100 sheets and handling paper weights of up to 220 g/m² also save a lot of time and work.

DCC 2625

And there is more: final steps such as punching, stapling, brochure production or a fax system are easy to integrate, and when cost transparency is needed, the all-rounder can handle up to 1,000 cost centres.

Facts you can trust:

- Top-speed printing and copying – 25 A4 pages a minute in colour and b/w
- Standard scanning with the function of creating compressed and encrypted PDF files
- Low waiting times: 1st b/w page after 5.9 seconds, 1st colour page after 7.9 seconds, warm-up time just 45 seconds
- Paper formats from A6R to A3 and paper weights of up to 220 g/m²
- Adjustable touch panel
- Use control with cost-centre management
- Versatile job storage functions such as virtual mailboxes*, storage of processed data* and private printing
- More security thanks to encryption and overwriting of hard-disk data*
