

P-C2660 MFP/P-C2665 MFP

Simple and versatile: All the colours you desire.

Do you wish to be flexible and save space without compromising on high quality colour printing? If so, the P-C2660 MFP and the P-C2665 MFP are the perfect partners for your office.

Whether you want to print, copy, scan or fax, these two multifunctional systems score points with versatile features for small teams and task groups. Save space, remain creative, and take advantage of a whole range of colours!

Your benefits:

Colour that amazes: Print your presentations, handouts and flyers in colour and make an impression with visually appealing documents. Black and white is no problem either: Print more cost-effectively at the touch of a button!

Important functions – exactly as you need them: Nowadays, almost everyone needs to copy, print and scan. The P-C2660 MFP fulfils these requirements as standard. Do you require additional comprehensive fax functionalities including PC-Fax? If so, the P-C2665 MFP is perfect for you!

Everything flows smoothly: A rate of 26 A4 pages/minute when printing and copying and a maximum of 35 A4 pages/minute when scanning means you never have long to wait for the end result, giving you time to look after more important things. You've also got more support on hand: the standard document feeder for 50 sheets that automatically reverses double-sided originals and the integrated duplex unit. Scan or print documents quickly and simply via USB stick, even without a network connection. All of this makes work a lot more fun!

Diverse range of media for more creativity: Whether it be normal paper or special media such as coated, heavy paper or labels – the choice is yours! Both the multi-bypass and optional multi-purpose cassette process a wide range of special materials up to 220 g/m² and formats from A4 to A5R or A6R. You won't run out of steam as fast thanks to a maximum paper capacity of 1,300 sheets – even with larger print jobs.
